We're here to help you.

We offer support to grieving individuals and families, the severely injured, their loved ones, as well as people responsible for causing road crashes. We offer assistance upon the loss of a loved one and with the grieving process.

” Group meetings were of great help to me in overcoming my grief. I was among people who understood my pain, as they had survived similar experiences. Sometimes no words needed to be spoken, only a glance exchanged and a hug given, this eased some of the pain.

It feels as if everything before the road crash is no longer of any importance, and that there is no future. You ask yourself whether you will ever feel better. Many of us recognize these feelings and understand the pain you feel in these circumstances. We understand you are searching for your own way forward in circumstances you were unprepared for.
